

SEO Case Study – houseofquadri.com

From- BeSky Marketing

Boost in Sales by Winning Top #1 Spot on Google 📍

I want to share a success story about how I helped a brand reach more website visitors and earn more money through organic reach.

So, how did I get their important keywords to show up on the 1st Page of Google?

www.beskymarketing.com

The Problems:

- Poor on-page SEO, lack of content and keyword optimization on the target pages
- Poor URL structure (most of the URLs are with numbers)
- They didn't have a blog or a strategy for creating new content
- Lack of Backlinks.

Our Approach:

- Optimized their website's on-page by adding content with targeted keywords.
- Changed their URL structure with page titles and keywords.
- Created a well-researched content strategy
- Started creating high-quality backlinks

Results:

- They started to get more website visitors
- They started to get revenue from organic results
- They began to show up on the first page of Google when people searched for these keywords
- More people learned about the brand
