

SEO Case Study – Shopanaar.com

From- BeSky Marketing

 **We Ranked Major Keywords in 1st Page of Google in just 2 Months** 

I want to tell you a great story about how we took a website that nobody could find on Google and made it one of the first things people see when they search for certain things. Here's how we did it:

www.beskymarketing.com

Issues we face:

- Website Problems: The website didn't have enough good words and information.
- Confusing Web Addresses: The website's links had numbers instead of words, making them hard to understand.
- No Blog or New Content: They didn't write new articles or share new things regularly.
- No Connections to Other Sites: Other websites didn't link to them, making Google think they're unimportant.

Our Approach:

- Fixed the Website: We added the right words and more information to make it better.
- Fixed the Links: We changed the confusing numbers to words in the web addresses.
- Started a Blog: We helped them write new articles and share new things on a blog.
- Connected with Other Sites: We got other websites to link to them, showing that they're important.

What Happened:

- More People Visited the Website: Lots of new people started to visit their website.
- They Made More Money: More visitors meant more sales.
- They Showed Up on Google's First Page: When people searched for certain words, their website was one of the first to see.
- More People Know About Them: Now more people know about what they do and like them.
